It is, however, almost im-possible to sell bonds at anything like the uoted prices, and the fact that arbitrage above the lowest. As reported in yestercable, the syndicate's efforts to heck gold shipments are almost disregarded here. Other markets were flat in sympathy with Americans. A failure is reported in the Glasgow market and in Paris two big firms have been in difficulty. In one of these accounts were practically closed to-day. It is that of a large operator who was helped over by a big finan-cial house last November. The Paris and

Berlin markets were flat." The total sales of stocks were 240,802 hares, including: American Tobacco, Atchison, 3,400; American Sugar, 65,200; Burlington & Quincy, 14,700; Chicago Gas, 5,800; Louisville & Nashville, 13,400; Manhattan, 7,00; Rock Island, 11,600; St. Paul. 44.200; Western Union, 4.100; Lake Erie & West rn. 3.100; Southern Railway, 1,100; silver certificates, \$7.000.

The stock market was fairly active yeserday, and, as usual recently, sentiment played an important part in shaping the course of prices. The trading was comparatively well distributed, although ugar and St. Paul figured for over onenalf of the entire total. The first mentioned was the star performer, and, in common with the general list, was de-idedly irregular. Incidentally it touched par, the lowest price recorded for a long time. The movement of the stock exerted considerable sympathetic influence on the other prices. The general movement was feverish in tone in the forenoon, averaging fluctuation of nearly 1 per cent. The opening was weak, chiefly owing to Lonquotations for American securities, and in the early dealings declines were scored extending to 1% per cent. in Rock Island. At the low level some support became evident in the leading stocks and there was also extensive covering of shorts and improvements from the low points occurred, ranging up to 14 per cent, in Chicago Gas and Manhattan. About midday commission orders appeared and together with continued covering and some uving of the international shares caused further appreciation in prices. The infor the industrials was quite Erked. The more unbortant extreme advances were in Sugar, 21/8; Tobacco, 17/8; Leather preferred, 11/2, and Chicago Gas, per cent. Grangers rose 1@2 per cent.. the last in Rock Island. The closing was strong, but prices were generally a shade below the best figures. Dealings in the

LCCAL GRAIN AND PRODUCE.

Sharp Advance in Wheat-Oats Also Higher-Other Markets Steady. The only notable feature in the wholesale streets, uside from the long-continued reign of duliness, is the steadiness with which prices are maintained in all lines of trade. Neither in dry goods nor groceries is there any life, though some show of business is apparent. Unquestionally the excessively hot weather has something to do with limiting trade. The receipts of poultry, eggs, etc., have fallen off somewhat, and the market is firm at the quotations given. In fruits and vegetables there is practically no change except that the single article of water-melons are advanced somewhat in price. Sweet potatoes are coming in, and are quoted at \$3.50 G4 per brl. On 'Change there was developed a sudden demand for wheat, which advanced bids sharply. (ats are also quoted higher. CAUSED AN ADVANCE AT CHICAGO OF 11-2c IN SEPTEMBER FUTURES.

Covering by Shorts Brought About Better Prices in Corn, and Pork Climbed Up 15 Cents.

CHICAGO, July 29 .- Crop failures in Russia, damage to harvested wheat in Ohio, Indiana and Michigan, caused that cereal to advance 11/2c on active speculative business for the September option to-day. Corn recovered 1/2c per bushel on covering by shorts. Oats were strong because of the bad reports concerning the crop. Provisions rose sympathetically with grain. There was a good trade and fairly active market in wheat, prices changing quite frequently within 114c range. The feeling displayed was somewhat stronger and slightly higher prices ruled, the close showing a gain of 11/@1%c. The early strength apparently came from the foreign situation, Liverpool cables showing no change in prices, which in face of the break here yesterday was taken as an indication of firmness and was said to be due to bad weather on the other side. London advices reported the crop in southern Russia damaged and though reports of this character were in circulation two days ago, it added something to the price to-day. The falling off in the local movement and reports of light acceptances to last night's bids by the country was also something of a strengthening influence. Damage claims to wheat in shock were numerous and was something of a factor. The market during the early part of the day acted as if a little oversold yesterday and many of the recent sellers were fairly active buyers. Weather in England was reported unsettled. The map on this side showed favorable conditions. Second cables came a little easier, and caused a moderate decline, and was helped along by professional selling. Bradstreet's report showed a de-crease last week in the world's available the same period last year being 2,425,000 bushels. Paris quoted wheat 15@29 centines off. Berlin was 14@18, marks leading 2.425,000 sales, fully 29.—Petroleum quiet; closed at \$1.10 asked. Rosin steady. Turpentine quiet. off. continual decline, and final figures showed 36@1/2c advance. There was free and active buying by eral of the more prominent shorts, who have sold liberally of late and the same was supplied by the elevator and receiving interests. Oats were active, stronger and higher with an advance of 1/20%c, which was maintained at the close. Opening prices were the lowest and there were few reactions on the way up. The features were the con-firmation of the crop damage by the weather bulletin, the damage in Iowa being especially significant. Parties in the interior who have made sales to arrive have been unable to get the oats owing

to the crop damage and the rains retarding the threshing and have canceled their contracts. This necessitated free buying in of September by commission houses. There was also buying by local shorts and no pressure to sell. The advance in wheat and small receipts also assisted in making a stronger market. Provisions were fairly steady during the forenoon and advanced near the end of the session. September pork opened at \$6.05, declined to \$6.023/2, worked gradually up to \$6.10, and near the close had a rapid bulge to \$6.20, with \$6.20 the final price. shows an advance for the day of 15c and January pork advanced 71/2c.
